

PARTNER NAMES:

GEO FASTFACTS of Canada and the United States
Specific states, provinces, and territories

You and your partner(s) have been randomly assigned the following states, provinces, or territories:

1. Alabama
2. Connecticut
3. Illinois
4. Alberta

Please turn to your book on page 105 and study the GEO FastFacts page. You will be creating a page for EACH of your four assigned states, provinces, or territories. Please note that the GEO FastFacts are **PHYSICAL FEATURES – NOT CULTURAL**.

We will be going to the computer lab, and you will need to use appropriate online sources to find information on each area. You will need to write down this information – please bring lined paper. Just like the GEO FastFacts page, you will need at least four GEO FastFacts for each area.

Once you have collected your information, you will use the computer paper provided by Miss Kuhrt to make a poster of each area that includes an outline map of that state, province, or territory and the four GEO facts you have collected.

PARTNER NAMES:

**GEO FASTFACTS of Canada and the United States
Specific states, provinces, and territories**

You and your partner(s) have been randomly assigned the following states, provinces, or territories:

1. North Carolina
2. Rhode Island
3. Virginia
4. Nunavut

Please turn to your book on page 105 and study the GEO FastFacts page. You will be creating a page for EACH of your four assigned states, provinces, or territories. Please note that the GEO FastFacts are **PHYSICAL FEATURES – NOT CULTURAL.**

We will be going to the computer lab, and you will need to use appropriate online sources to find information on each area. You will need to write down this information – please bring lined paper. Just like the GEO FastFacts page, you will need at least four GEO FastFacts for each area.

Once you have collected your information, you will use the computer paper provided by Miss Kuhrt to make a poster of each area that includes an outline map of that state, province, or territory and the four GEO facts you have collected. OR, you can create a PowerPoint with a slide that shows each area that includes an outline map of that state, province, or territory and the four GEO facts you have collected. We will be presenting these in class.

PARTNER NAMES:

**GEO FASTFACTS of Canada and the United States
Specific states, provinces, and territories**
