

Using Latitude and Longitude

The grid on this page is marked off in degrees of latitude and longitude. Below is a list of 25 points on the earth's surface. The location of the first point is marked on the grid for you. Locate the other points and connect the dots to form the shape of one of the continents. Put number by each point.

- | | | | | |
|--------------|---------------|---------------|---------------|---------------|
| 1. 30°S/50°W | 6. 50°S/75°W | 11. 6°S/80°W | 16. 11°N/65°W | 21. 4°S/35°W |
| 2. 36°S/57°W | 7. 40°S/75°W | 12. 5°S/81°W | 17. 10°N/60°W | 22. 10°S/30°W |
| 3. 40°S/63°W | 8. 30°S/73°W | 13. 0°/80°W | 18. 7°N/55°W | 23. 14°S/37°W |
| 4. 50°S/70°W | 9. 20°S/71°W | 14. 10°N/77°W | 19. 5°N/50°W | 24. 20°S/37°W |
| 5. 55°S/70°W | 10. 15°S/75°W | 15. 13°N/70°W | 20. 0°/47°W | 25. 23°S/44°W |
